

STEP BY STEP QR CODE

1. Scan the QR code

Point the camera at the QR code located near the property entrance.

2. Choose who to call

Once scanned, select from the list of contacts associated with the property.

Choose the homeowner or keyholder to contact for access.

3. Unlock the door

The homeowner or keyholder answers the call.

Request access to the property.

The homeowner or keyholder remotely unlocks the door using their mobile phone.

Enjoy your stay !

STEP BY STEP DIGITAL KEY

1. Send the digital key

The owner of the house or key holder sends a URL via SMS, WhatsApp, or email to the guest.

2. Receive the digital key

The guest clicks on the link, which opens in their web browser, revealing a digital key.

3. Slide to unlock

1. By sliding to unlock on the screen, the door opens for the guest. The digital key is programmed to expire automatically at the checkout date and time, ensuring security and convenience for all parties involved.

Enjoy the stay !
